3706 Bachelor of Engineering Science Program Rules

The Bachelor of Engineering Science program is a 3-year non-accredited pass degree with the following Program Structure Rules:

- 96 UOC Stream
- 36 UOC Free Electives
- 12 UOC General Education

The 96 UOC Stream requirement consists of Engineering courses from a specific BE (Hons) discipline stream. *At least 24 UOC of these courses must be from Year 3 or above.*

Note: Some streams may require additional Year 3 *Electives* e.g. *Civil Engineering requires 36 UOC.*

Students completing the Bachelor of Engineering Science program in dual mode (double degree) are only required to complete the 96 UOC Stream requirements. Students should follow the program and stream requirements outlined in the 3706 Handbook page of their nominated specialisation (available from 2022 onwards).

Free electives can include any courses within or outside the Faculty of Engineering.

General Education are courses offered by a Faculty that is not the Engineering Faculty, and General Education cannot be related to core courses in your stream (e.g. "MATH" prefixed courses do not count despite being from the Faculty of Science).

Criteria for readmission to a BE (Hons) program

- A minimum of 48 UOC completed while in the BEngSc program*; and
- A minimum WAM for the courses completed while in the BEngSc program such that students will meet the BE (Hons) progression requirements when transferred; and
- Any core courses failed while studying in the BE (Hons) program have been passed, as have any taken during the BEngSc program that would be core in the BE (Hons); and
- Students must be in GOOD Academic Standing; and
- Students can complete the BE (Hons) program within the maximum time to complete.

To re-enter the Bachelor of Engineering (Honours) program, students must submit an Undergraduate Internal Program Transfer (UG IPT) via myUNSW upon meeting the above criteria to be considered for transfer.

NB: The criteria are the same for Bachelor of Science (Hons) (Food Science) students who were transferred out of their degree to be readmitted back into 3061.

*Students who were transferred to the Bachelor of Engineering Science program with less than 48uoc left before graduation may submit an application to be transferred back to the Bachelor of Engineering

(Honours) degree in their final term, and will be considered on a case by case basis. Students in this situation who are unable to submit an IPT application via myUNSW should contact Student Services instead.
